

REETRO USER ROLES

USER GUIDES

Super Admin

This member can manage the whole organization, he/she can create, delete or upgrade teams, setup integrations & SSO, enable or disable specific features, can manage users, super admins and team admins. He can also delete the whole organization account, which will permanently delete everything (all teams, boards and users)

Team Admin

This member can only manage the team he/she is admin for and has access to all the features in that team. He/she can create, delete or upgrade team, setup integration & SSO for that team, enable or disable specific features and can manage team users, He/She can also delete the team, which will permanently delete everything in that team (all boards, users and data)

Team Member:

This member can only give feedback, like or comment on other feedback items. Most of the Reetro features are not accessible for him/her.

Guest User

This is a one time temporary team member. Guest users can only join the public boards. If the board is made private or the guest user logs out, he/she cannot access the board again. Guest users can only give feedback, like or comment on other feedback items. No other Reetro feature are accessible for them.

READ-ONLY User

Anytime the team member limit is reached all the users above that limit will join as READ-ONLY team members or READ-ONLY Guest users.

A READ-ONLY user can only view the board and its content but cannot interact with the content e.g; adding comments, cards or votes
